About Amin

Founded in 2026, Amin Services Co. Ltd. is a Sudanese company that brings medical supply, engineering and field services, and project and tender management together under one disciplined structure.

As Sudan rebuilds, institutions, companies and development partners need suppliers they can rely on: partners who deliver what they promise, document what they do, and stay accountable from the first quote to the final handover.

That is the role Amin exists to fill. One management team, one quality standard and one point of accountability, applied across every sector we serve.

Our Vision

رؤيتنا

To be Sudan's trusted partner for integrated services, supporting the country's recovery with reliable, well-managed delivery.

Our Mission

رسالتنا

To deliver medical, engineering and project services with the discipline and accountability our clients depend on, and to grow sustainably alongside them.

01

TRUST

الثقة

We keep our word: clear pricing, honest timelines and full accountability for every commitment we make.

02

DISCIPLINE

الانضباط

Structured processes, documented controls and regulatory compliance in every sector we operate in.

03

GROWTH

النمو

Sustainable growth for our clients, our people and our communities, built on delivery rather than promises.

Professionalism

Reliability

Transparency

One company. Multiple sectors.

شركة واحدة. قطاعات متعددة.

Our activities are not separate businesses under one name. They are three capabilities of one organization, sharing management, logistics, procurement and quality control.

Amin Services Co. Ltd.

One management · One quality standard · One point of accountability

شركة واحدة. قطاعات متعددة. حلول متكاملة.

Medical Supply

الإمداد الطبي

- Trading in medicines
- Distribution for selected agents
- New agencies & authorizations
- Supply to the health sector

Engineering & Field Services

- Mining sector services
- Engineering maintenance
- Agricultural maintenance
- Livestock sector services

Projects & Tenders

إدارة المشاريع والعطاءات

- Project management & execution
- Tender management
- Cross-sector coordination
- Delivery & reporting

One point of contact

A single accountable team for every order, contract and project.

Shared logistics

Procurement, transport and storage coordinated across sectors.

Common controls

The same documentation, quality checks and reporting everywhere.

Integrated delivery

Projects that combine supply, engineering and management.

MEDICAL

03 — CAPABILITY

Medical Supply

الإمداد الطبي

Reliable access to medicines is one of Sudan's most urgent needs. Amin supplies and distributes medicines through licensed, documented channels.

We work with manufacturers and agents to bring approved products into the market, and with health facilities to keep them supplied.

Regulatory compliance. Our medical activities are carried out through licensed channels and in line with the requirements of Sudan's National Medicines and Poisons Board.

01 Trading in medicines

Sourcing and supply of approved medicines and medical products.

02 Distribution for selected agents

Distribution on behalf of the agents and manufacturers we represent.

03 Agencies & authorizations

Obtaining agencies and authorizations to bring new medicines to market.

04 Supply to the health sector

Supply to hospitals, pharmacies and health programs.

ENGINEERING

04 — CAPABILITY

Engineering & Field Services

الخدمات الهندسية والميدانية

Mining, agriculture and livestock are the foundations of Sudan's economy. Our field teams keep the equipment and operations behind them running.

We plan maintenance, respond to breakdowns and support operations on site, with the same controls and reporting used across the company.

Flexible engagement. Planned maintenance programs or on-call support, with scope, schedule and cost agreed in writing before work begins.

01 Mining sector services

Services and support to mining operators and contractors.

02 Engineering maintenance

Preventive and corrective maintenance of equipment and facilities.

03 Agricultural maintenance

Maintenance of agricultural machinery and irrigation equipment.

04 Livestock sector services

Technical and operational support to the livestock sector.

PROJECTS

05 — CAPABILITY

Projects & Tenders

إدارة المشاريع والعطاءات

We manage and execute projects and tenders within our areas of specialization, bringing supply, engineering and coordination together under one plan.

01 Project management & execution

Planning, resourcing and delivery against agreed scope, budget and schedule.

02 Tender management

Preparing compliant bids and managing awarded contracts in our sectors.

03 Coordination & delivery

One team coordinating suppliers, field staff and stakeholders across sectors.

How we work

منهجية العمل

What clients can expect

التزامنا تجاه عملائنا

Amin was founded in 2026 to serve Sudan's recovery. We are building our record one contract at a time, and every client can hold us to the same four commitments.

01

Written quotations

Clear scope, price and timeline before any work begins.

02

One point of contact

A named person accountable for every order and project.

03

Documented delivery

Delivery notes, handover records and receipts for every job.

04

Transparent reporting

Progress updates and issues raised early, never hidden.

Why Amin

لماذا أمين؟

Built for the recovery

Founded in 2026 to serve Sudan's rebuilding, with local knowledge of routes, suppliers and regulations.

One accountable partner

Supply, engineering and project management from a single, documented structure.

Compliance first

Licensed channels where the law requires them, with records ready for audit and donor reporting.

Structured for tenders

Organized to prepare compliant bids and deliver against contract terms.

Partner with us

We are building long-term relationships with manufacturers, agents, contractors and clients across our three sectors.
